Writing: Ten Core Concepts Robert P. Yagelski 2014-01-01 WRITING: TEN CORE CONCEPTS is based on ten fundamental lessons—the Core Concepts—that student writers must learn to become sophisticated writers. The thorough integration of these Core Concepts distinguishes the book from all other writing guides. Most composition textbooks present far more material than students could ever grasp and retain in a single semester. That approach ultimately waters down the most essential lessons students need to learn for their different writing tasks. Emphasizing writing as an interaction between a writer and a reader, WRITING: TEN CORE CONCEPTS offers students guidance in three main aims of writing and a way to participate in the important conversations that shape our lives. Each student text is packaged with a free Cengage Essential Reference Card to the MLA HANDBOOK, Eighth Edition. Under the Feet of Jesus Helena Maria Viramontes 1996-04-01 Winner of the John Dos Passos Prize for Literature "Stunning."—Newsweek With the same audacity with which John Steinbeck wrote about migrant worker conditions in *The Grapes of Wrath* and T.C. Boyle in *The Tortilla Curtain*, Viramontes presents a moving and powerful vision of the lives of the men, women, and children who endure a second-class existence and labor under dangerous conditions in California's fields. At the center of this powerful tale is Estrella, a girl about to cross the perilous border to womanhood. What she knows of life comes from her mother, who has survived abandonment by her husband in a land that treats her as if she were invisible, even though she and her children pick the crops of the farms that feed its people. But within Estrella, seeds of growth and change are stirring. And in the arms of Alejo, they burst into a full, fierce flower as she tastes the joy and pain of first love. Pushed to the margins of society, she learns to fight back and is able to help the young farmworker she loves when his ambitions and very life are threatened in a harvest of death. Infused with the beauty of the California landscape and shifting splendors of the passing seasons juxtaposed with the bleakness of poverty, this vividly imagined novel is worthy of the people it celebrates and whose story it tells so magnificently. The simple lyrical beauty of Viramontes' prose, her haunting use of image and metaphor, and the urgency of her themes all announce *Under the Feet of Jesus* as a landmark work of American fiction.

Emotional Agility Susan David 2016-09-06 #1 Wall Street Journal Best Seller USA Today Best Seller Amazon Best Book of the Year TED Talk sensation - over 3 million views! The counterintuitive approach to achieving your true potential, heralded by the Harvard Business Review as a groundbreaking idea of the year. The path to personal and professional fulfillment is rarely straight. Ask anyone who has achieved his or her biggest goals or whose relationships thrive and you'll hear stories of many unexpected detours along the way. What separates those who master these challenges and those who get derailed? The answer is agility—emotional agility. Emotional agility is a revolutionary, science-based approach that allows us to navigate life's twists and turns with self-acceptance, clear-sightedness, and an open mind. Renowned psychologist Susan David developed this concept after studying emotions, happiness, and achievement for more than twenty years. She found that no matter how intelligent or creative people are, or what type of personality they have, it is how they navigate their inner world—their thoughts, feelings, and self-talk—that ultimately determines how successful they will become. The way we respond to these internal experiences drives our actions, careers, relationships, happiness, health—everything that matters in our lives. As humans, we are all prone to common hooks—things like self-doubt, shame, sadness, fear, or anger—that can too easily steer us in the wrong direction. Emotionally agile people are not immune to stresses and setbacks. The key difference is that they know how to adapt, aligning their actions with their values and making small but powerful changes that lead to a lifetime of growth. Emotional agility is not about ignoring difficult emotions and thoughts; it's about holding them loosely, facing them

courageously and compassionately, and then moving past them to bring the best of yourself forward. Drawing on her deep research, decades of international consulting, and her own experience overcoming adversity after losing her father at a young age, David shows how anyone can thrive in an uncertain world by becoming more emotionally agile. To guide us, she shares four key concepts that allow us to acknowledge uncomfortable experiences while simultaneously detaching from them, thereby allowing us to embrace our core values and adjust our actions so they can move us where we truly want to go. Written with authority, wit, and empathy, Emotional Agility serves as a road map for real behavioral change—a new way of acting that will help you reach your full potential, whoever you are and whatever you face.

Last Child in the Woods Richard Louv 2008-04-22 "The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition In his landmark work Last Child in the Woods, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, Last Child in the Woods, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad

New Directions in Assessing Historical Thinking Kadriye Ercikan 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular. The assessment of history learning, which for a century has valued those little bits as the centerpiece of its practice, now faces not only an unprecedented glut but a disconnect with what is valued in history education. More complex processes—historical thinking, historical consciousness or historical sense making—demand more complex assessments. At the same time, advances in scholarship on assessment open up new possibilities. For this volume, Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have, collectively, moved the fields of history education and assessment forward. Their various approaches negotiate the sometimes-conflicting demands of theoretical sophistication, empirically demonstrated validity and practical efficiency. Key issues include articulating the cognitive goals of history education, the relationship between content and procedural knowledge, the impact of students' language literacy on history assessments, and methods of validation in both large scale and classroom assessments. New Directions in Assessing Historical Thinking is a critical, research-oriented resource that will advance the conceptualization, design and validation of the next generation of history assessments.

Reclaiming English Language Arts Methods Courses Jory Brass 2014-09-04 Reclaiming English Language Arts Methods Courses showcases innovative work in teacher education that fosters teachers' capacities as reflective practitioners and public intellectuals; extends traditional boundaries of methods courses on teaching the English language arts, literacy, children's and young adult literature; and embodies democratic and critical politics that go beyond the reductive economic aims and traditional classroom practices sanctioned by educational policies and corporate educational reforms. Featuring leading and emerging scholars in English language arts teacher education, each chapter provides rich and concrete examples of elementary and secondary methods courses rooted in contemporary research and theory, on-line resources, and honest appraisals of the possibilities, tensions, and limits of doing teacher education differently in a top-down time of standards-based education, high-stakes testing, teacher assessment, and neoliberal education reforms.
