Foreigners, Refugees or Minorities? Didier Bigo 2016-04-15 When immigration policy and the treatment of Roma collide in international relations there are surprising consequences which are revelatory of the underlying tensions between internal and external policies in the European Union. This book examines the relationship of citizenship, ethnicity and international relations and how these three aspects of the State, its people and its neighbours relate to one another. It studies the wide issue of international relations, citizenship and minority discrimination through the lens of the case study of European Roma who seek refugee status in Canada on account of their persecution in Europe. The volume assesses the relationships among citizenship, state protection and persecution and minority status, and how they can intersect with and destabilize foreign affairs. The central background to the book is the European treatment of Roma, their linkages with visa and asylum policies and their human rights repercussions. The various contributions reveal how modern liberal democracies can find themselves in contradictory positions concerning their citizens - when these are looking for protection abroad - and foreigners - in search of international protection - as a consequence of visa and pre-border surveillance policies and practices.

The Afghan Hound Fardin Azizzada 2016-03-31 Away from this World (The Afghan hound) When government corruption becomes a way of life, it is the minorities that suffer the most. Aftab Hakimi was born into a Hazara family in 1973 in Kabul, Afghanistan. At the age of fifteen, he emigrated to India. After living in India for a year and five months, he was smuggled to London, England. He received his British travel document after living in London for ten months. He decided to live in the United States with his cousin; however, the US embassy in London refused to give him a visiting visa on his British travel document. Aftab obtained a Mexican visa, and from Mexico climbed over the border and landed on US soil. After two and half years, the US immigration did not accept his refugee application and put him on deportation. Aftab decided to start a new life in Canada, so he crossed into Quebec from New York and declared himself an Afghan refugee in Canada. Throughout his journey Aftab used fake names and dates of birth in order to protect his actual identity. Aftab faced many social challenges, such as cultural shock, jealousy, a materialistic lifestyle, and women.

Refugee Law in India Shuvro Prosun Sarker 2017-08-08 This book considers refugee protection mandates and addresses how legal scholarship can articulate a comprehensive and humane response to the contemporary refugee problem. Analyzing philosophical discourses and India's policies and practices on refugee protection, including judgments of Indian Courts in refugee related cases, it examines how organizational efforts can make these policies and practices equal for every refugee in India. It also surveys prevailing discriminative protection standards and entitlements developed through Conventions, Declaration and Directives, and compares and contrasts national refugee legislations in South Africa, Brazil and Canada. A key read for scholars and practitioners interested in the legal and policy implications of refugee protection, this text identifies various practices of nation-States from across the North/South divide and provides key insights into the evolving nature of protection agendas.

Nationality and Statelessness in the International Law of Refugee Status Eric Fripp 2016-09-22 International refugee law anticipates state conduct in relation to nationality, statelessness, and protection. Refugee status under the Convention relating to the Status of Refugees 1951 and regional and domestic instruments referring to it can be fully understood only against the background of international laws regarding nationality, statelessness, and the consequences of national status or the lack of it. In this significant addition to the literature a leading practitioner in these fields examines, in the light of international law, key issues regarding refugee status including identification of 'the country of his nationality', concepts of 'effective nationality', and the inclusion within 'persecution' of a range of acts or omissions focused on nationality.

The Rights of Refugees under International Law James C. Hathaway 2021-04-22 Do states have a duty to assimilate refugees to their own citizens? Are refugees entitled to freedom of movement, to be allowed to work, to have access to public welfare programs, or to be reunited with family members? Indeed, is there even a duty to admit refugees at all? This fundamentally rewritten second edition of the award-winning treatise presents the only comprehensive analysis of the human rights of refugees set by the UN Refugee Convention and international human rights law. It follows the refugee's journey from flight to solution, examining every rights issue both historically and by reference to the decisions of senior courts from around the world. Nor is this a purely doctrinal book: Hathaway's incisive legal analysis is tested against and applied to hundreds of protection challenges around the world, ensuring the relevance of this book's analysis to responding to the hard facts of refugee life on the ground.

Hope Deferred Peter Orner 2015-10-01 The situation in Zimbabwe represents one of the worst humanitarian emergencies today. This book asks the question: How did a country with so much promise — a stellar education system, a growing middle class, a sophisticated economic infrastructure, a liberal constitution, an independent judiciary, and many of the trappings of Western democracy — go so wrong? In their own words, Zimbabweans recount their experiences of losing their homes, land, livelihoods, and families as a direct result of political violence. They describe being tortured in detention, firebombed at work, or beaten up or raped to “punish” votes for the opposition. Those forced to flee to neighboring countries recount their escapes: cutting through fences, swimming across crocodile-infested rivers, and entrusting themselves to human smugglers. This book includes Zimbabweans of every age, class, and political conviction, from farm laborers to academics, doctors to artists, opposition leaders to ordinary Zimbabweans; men and women simply trying to survive as a once-thriving nation heads for collapse.
