

Contending Perspectives In Comparative Politics A Reader

As recognized, adventure as capably as experience virtually lesson, amusement, as competently as conformity can be gotten by just checking out a book *Contending Perspectives In Comparative Politics A Reader* along with it is not directly done, you could recognize even more with reference to this life, not far off from the world.

We find the money for you this proper as well as easy pretension to acquire those all. We find the money for *Contending Perspectives In Comparative Politics A Reader* and numerous book collections from fictions to scientific research in any way. in the midst of them is this *Contending Perspectives In Comparative Politics A Reader* that can be your partner.

Contending Perspectives In Comparative Politics: A Reader Lawrence Mayer 2008-12-11 In addition to a well-chosen set of classic readings, *Contending Perspectives* also offers students access to cutting-edge research. By framing chapters around a central question in the field, the editors are able to show students how scholars approach inquiry with different perspectives, producing controversy and consensus in interesting and instructive ways. With these selections, students see work with data, theory, and analysis at its best and set in proper context—pieces chosen just for their currency or for pages of colorful detail. Chapter introductions and selection headnotes offer important background and critical thinking questions.

National Purpose in the World Economy Rawi Abdelal 2018-08-06 How do national identities affect the world economy? Building on the insight that nationalisms and national identities endow economic policy with social purpose, Rawi Abdelal proposes a novel theoretical framework, a distinctively Nationalist perspective on international political economy, to answer this question. Using this framework, and drawing on field research in Lithuania, Ukraine, and Belarus, he provides an in-depth look at the link between national identity and the economic policies of the new states formed by the breakup of the Soviet Union. All these states, from the Baltic coast to central Asia, were economically dependent on Russia during the 1990s. However, they reacted very differently to that dependence, and their reactions can be traced, Abdelal contends, to their individual societies. Some, such as Belarus, found dependence inevitable and sought economic reintegration with Russia. Others, like Lithuania, interpreted dependence as a large-scale security threat and reoriented their economies away from Russia. A third group, typified by Ukraine, demonstrated no coherent economic policy at all regarding dependence. Abdelal distinguishes the Nationalist tradition in international political economy from the Realist tradition, and shows that economic nationalism is different than mercantilism. He demonstrates the ways that national identity affects economic policy and explains why some governments seek economic autonomy while others prefer regional reintegration. He then applies his approach to

other cases of economic reorganization after the end of empire—eastern Europe in the 1920s after the Habsburgs, 1950s Indonesia, and French West Africa in the 1960s.

Europe's Contending Identities Andrew C. Gould 2014-02-17 This volume interrogates the implications of the persistence of nationalisms and newer, ethnic-religious identities for the emergence of a robust European identity. The collected essays intersect and are informed by the streams of scholarship on: contemporary ethnonationalism; the challenges associated with immigrant, particularly Muslim immigrant, incorporation; and the so-called new nationalism, including the illiberal ideas and policies promoted by extreme right political parties and groups.

Contending Perspectives in International Political Economy Nikolaos Zahariadis 1999 Explicating the essential structures, actors, and processes in international economic relations, *CONTENDING PERSPECTIVES IN INTERNATIONAL POLITICAL ECONOMY* focuses on the historical evolution of International Political Economy (IPE), the theories of IPE, and current issues that challenge officials worldwide.

Introducing Comparative Politics + Contending Perspectives in Comparative Politics Carol Ann Drogus 2008-12-11

The Political Economy Reader Naazneen H. Barma 2021-08-30 The Political Economy Reader advocates a particular approach to the study of political economy – the "market-institutional" perspective – which emphasizes the ways in which markets are embedded in political and social institutions. This perspective offers a compelling alternative to the market-liberal view, which advocates freer markets and less government intervention in the economy, as if states and markets were naturally at odds with each other. The reader embraces a truly interdisciplinary approach to the study of political economy, with extensive coverage from sociology, economics, history and political science. It includes some of the most important classical and contemporary theoretical perspectives on political economy. And it engages some of the most topical debates in political economy today, such as climate change, the global financial crisis, inequality, the digital platform economy, and the COVID-19 pandemic. For political economy courses at a variety of levels and from a range of disciplines, the reader is also of interest to scholars and citizens wanting perspective on the intersection of economics, politics, and society. New to the Second Edition • More than 20 new readings included by such notables as Elinor Ostrom, E. J. Hobsbawm, Dani Rodrik, Amartya Sen, Thomas Piketty, and Mariana Mazzucato among many others. • Fully updated introductions to the book and each thematic chapter of readings. • Coverage of key emerging debates including climate change, the financial crisis, inequality, the digital platform economy, and COVID-19

Essential Readings in Canadian Constitutional Politics Peter H. Russell 2011 Essential Readings in Canadian Constitutional Politics introduces students, scholars, and practitioners to classic authors and writings on the principles of the Canadian Constitution as well as to select contemporary material. To complement rather than duplicate the state of the field, it deals with the Canadian Charter of Rights and Freedoms and with Canadian mega-constitutional politics in passing only, focusing instead on institutions, federalism, intergovernmental relations, bilingualism and binationalism, the judiciary, minority rights, and constitutional renewal. Many of the selections reverberate well beyond Canada's borders, making this volume an unrivalled resource for anyone interested in constitutional governance and democratic politics in diverse societies.

Axel Honneth Christopher Zurn 2015-04-22 With his insightful and wide-ranging theory of recognition, Axel Honneth has decisively

reshaped the Frankfurt School tradition of critical social theory. Combining insights from philosophy, sociology, psychology, history, political economy, and cultural critique, Honneth's work proposes nothing less than an account of the moral infrastructure of human sociality and its relation to the perils and promise of contemporary social life. This book provides an accessible overview of Honneth's main contributions across a variety of fields, assessing the strengths and weaknesses of his thought. Christopher Zurn clearly explains Honneth's multi-faceted theory of recognition and its relation to diverse topics: individual identity, morality, activist movements, progress, social pathologies, capitalism, justice, freedom, and critique. In so doing, he places Honneth's theory in a broad intellectual context, encompassing classic social theorists such as Kant, Hegel, Marx, Freud, Dewey, Adorno and Habermas, as well as contemporary trends in social theory and political philosophy. Treating the full range of Honneth's corpus, including his major new work on social freedom and democratic ethical life, this book is the most up-to-date guide available. Axel Honneth will be invaluable to students and scholars working across the humanities and social sciences, as well as anyone seeking a clear guide to the work of one of the most influential theorists writing today.

Still a House Divided Desmond King 2011-08-22 Why race remains the central political issue in America today Why have American policies failed to reduce the racial inequalities still pervasive throughout the nation? Has President Barack Obama defined new political approaches to race that might spur unity and progress? Still a House Divided examines the enduring divisions of American racial politics and how these conflicts have been shaped by distinct political alliances and their competing race policies. Combining deep historical knowledge with a detailed exploration of such issues as housing, employment, criminal justice, multiracial census categories, immigration, voting in majority-minority districts, and school vouchers, Desmond King and Rogers Smith assess the significance of President Obama's election to the White House and the prospects for achieving constructive racial policies for America's future. Offering a fresh perspective on the networks of governing institutions, political groups, and political actors that influence the structure of American racial politics, King and Smith identify three distinct periods of opposing racial policy coalitions in American history. The authors investigate how today's alliances pit color-blind and race-conscious approaches against one another, contributing to political polarization and distorted policymaking. Contending that President Obama has so far inadequately confronted partisan divisions over race, the authors call for all sides to recognize the need for a balance of policy measures if America is to ever cease being a nation divided. Presenting a powerful account of American political alliances and their contending racial agendas, Still a House Divided sheds light on a policy path vital to the country's future.

Beyond Paradigms Rudra Sil 2010-08-31 While paradigm-bound research has generated powerful insights in international relations, it has fostered a tunnel vision that hinders progress and widens the chasm between theory and policy. In this important new book, Sil and Katzenstein draw upon recent scholarship to illustrate the benefits of a more pragmatic and eclectic style of research.

Global Governance from Regional Perspectives Anna Triandafyllidou 2017-06-22 Global Governance from Regional Perspectives argues that the academic debate on global governance has neglected the combination of power with value constellations/culture. Both input and output legitimacy, for instance, or the exercise of control and influence are inextricably related to culture, worldviews, and values. The book questions theoretically the Western hegemonic and hence 'invisible' definition of governance and related concepts, as well as the Western hegemony over global governance institutions. It looks from the ground up whether, and how, alternative practices,

institutions/networks, and concepts/norms of global governance are emerging in relation to emerging powers and regional integration systems. *Global Governance from Regional Perspectives* starts with a critical reading of global governance from multi-disciplinary views and engages with two important and under-studied aspects, notably how global governance can be measured and what lies behind such measurements, and questions the democratic deficit of global governance. The book provides a series of regional and country perspectives on global governance which engage with a specific example of an institution, process, or issue that is used to highlight why and how the western hegemonic views and practices of global governance are (or not) contested. The book offers a mapping of global governance phenomena in different regions of the world and a critical readings of those. As such this volume is different from all international relations or political science collections on global governance and also opens up a new field of study that has been hitherto neglected in sociological or cultural studies.

Culture, Transnationalism, and Civil Society Paul J. Kaiser 1996 Focusing on the growing transnational community of Ismailis (Muslim Shi'a followers of the Aga Khan), this study analyzes the transnational and cultural characteristics of the Ismaili social service network in the context of state/society relations. There are approximately 20 million Ismailis worldwide in over 20 countries throughout the world, and they have developed--under the auspices of the Aga Khan--a sophisticated private sector nonprofit social service network of hospitals and schools that serves the health care and education needs of Ismailis and non-Ismailis. Based on research and interviews conducted in Europe and Africa from 1992-1995, this study shows how a strong civil society can contribute significantly to the social service goals of developing nations. It also provides information on the Ismailis of Tanzania which has not previously been available in the West, and so will be of interest to scholars in comparative politics, religious studies, development theory, and African Studies.

Economy and State Nina Bandelj 2013-05-08 Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .

State and Labor in South Korea Yong Cheol Kim 1994

Contending Perspectives on Global Governance Alice D. Ba 2006-05-17 Global governance is fast becoming a ubiquitous phrase, succeeding globalization as the latest buzz term. But exactly what does it mean? For many scholars and policymakers the term captures important aspects of world politics. This unique volume delivers and compares the key perspectives of the leading thinkers in the area, equipping the reader with an excellent understanding of the debate now defining and mapping the future of this term. This comparative approach is underpinned by a lucid theoretical framework which guides the reader towards building a clear sense of the debate and its

complexities. A wide range of empirical issues are covered, including those of Security, International Political Economy, Environment, Human Rights, Social Movements and Regulation. Including theorists of social constructivism, liberal imperialism and realism, this is an essential book for students and scholars which stimulates discussion and presents a fully rounded picture of global governance.

Political Economy Barry Clark 2016-03-21 This nontechnical book provides a comprehensive and interdisciplinary survey of political economy that can easily be understood by any reader with an introductory-level background in economics. * Provides in-depth historical analysis of the development of political/economic ideologies and their influence on contemporary debates among social scientists as well as the general public * Gathers ideas and policy proposals from many prominent social scientists representing divergent ideological perspectives into a single volume * Analyzes the roles of science and ideology in the development of political economy * Exposes students to the findings of advanced social science research in easily understood and accessible language

Principles of Comparative Politics + Contending Perspectives in Comparative Politics William Clark 2008-12-11

MODERN COMPARATIVE POLITICS SAMIRENDRA N. RAY 1998-01-01 Designed primarily as an introductory textbook for graduate and senior undergraduate students offering comparative politics as a compulsory course, this finely integrated text is by far the most comprehensive, yet concise and critical analysis of the contending approaches, methods, and models and the theory-building efforts made in the second half of this century. The book provides a lucid and up-to-date presentation of the ramifications of the governmental process and political dynamics, issues and problems relating to the structure, function, process and operation of governmental and political organizations in a genuinely comparative perspective.

Political Economy: A Comparative Approach, 3rd Edition Barry Clark Professor Emeritus 2016-03-21 This nontechnical book provides a comprehensive and interdisciplinary survey of political economy that can easily be understood by any reader with an introductory-level background in economics. • Provides in-depth historical analysis of the development of political/economic ideologies and their influence on contemporary debates among social scientists as well as the general public • Gathers ideas and policy proposals from many prominent social scientists representing divergent ideological perspectives into a single volume • Analyzes the roles of science and ideology in the development of political economy • Exposes students to the findings of advanced social science research in easily understood and accessible language

Distortion Or Development? Thomas J. Biersteker 1978

The Political Economy Reader Naazneen Barma 2008 This reader combines, in a single volume, the key writings of classical and contemporary thinkers on political economy, providing both a theoretical approach to understanding capitalism and a survey of the varieties of capitalism around the world today.

The Routledge Handbook to Global Political Economy Ernesto Vivares 2020-05-07 The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy (GPE) is conceptualized and researched around the world. Including contributions that range from traditional International Political Economy (IPE) to GPE approaches, the Handbook gathers the investigations, varying perspectives and innovative research of more than sixty scholars from all over the world. Providing undergraduates, postgraduates, teachers and researchers with a complete set of traditional, contending and regional perspectives, the book explores current issues, conceptual tools, key research debates and different methodological approaches taken. Structured in five

parts methodologically correlated, the book presents GPE as a field of global, regional and national research: • historical waves and diverse ontological axes; • major theoretical perspectives; • beyond traditional perspectives; • regional inquiries; • research arenas. Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic, pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study.

Regionalism in Post-Suharto Indonesia Maribeth Erb 2013-01-11 Since the fall of the Suharto regime, forces pressing for regional autonomy have strengthened in Indonesia, with some people arguing that the country is in danger of disintegrating. This book examines a range of issues connected with decentralization and regional autonomy in Indonesia, especially focusing on various local contexts. The multiple issues that are dealt with in this volume include: ethnic revival and violence; corruption, collusion and nepotism; the complexities of administrative reorganization and the forging of new networks; reshaping of cultural identity; new emerging social hierarchies; and new conflicts over the use of environment.

Comparative Government and Politics John McCormick 2022-04-06 Offering a comprehensive introduction to the comparison of governments and political systems, this new edition helps students to understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world. This new edition offers: - A revised structure to aid navigation and understanding -New learning features, 'Using Theory' and 'Exploring Problems', designed to help students think comparatively -Empirical global examples, with increased coverage of non-Western scholarship and analyses - Coverage of important contemporary topics including: minorities; LGBTQ+ issues; identity politics; women in politics; political trust; populism; Covid-19. Featuring a wide range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on Comparative Politics, Comparative Government, Introduction to Politics and Introduction to Political Science.

JAIR Journal of International Relations Avipsu Halder 2017-06-30 JAIR Journal of International Relations (JAIR J. Int. Relat.) is a biennial, peer-reviewed, refereed journal of International Relations published by The Jadavpur Association of International Relations with the financial assistance from the Indian Council of Social Science Research (ICSSR), New Delhi.

Latin America In Comparative Perspective Peter H Smith 2018-10-08 This book, the inaugural publication in a multivolume series entitled Latin America in Global Perspective, highlights the necessity and feasibility of analyzing Latin American society and politics within broad comparative frameworks. The rapidly changing agenda for social science research on the region calls for the rigorous application of new conce

Political Science Reading Lists and Course Outlines 1981

Understanding Third World Politics Brian Smith 2013-01-15 Understanding Third World Politics gives a comprehensive and critical introduction to the main theories that have been used to understand political change in developing countries. It examines the variety of political institutions and processes in the Third World and critical evaluates the major explanatory frameworks used by political scientists to understand them. The discussion is supported throughout by a wide range of topical case studies from around the world – including features on class in Brazil and democracy in India. The book concludes by considering the political instability that so frequently plagues poor countries and by identifying the conditions required to establish democratic stability. The fourth edition has been revised and updated throughout to take account of key political developments, including foreign interventions in the Middle East, state repression in

North Africa, and the secession of South Sudan. Engagingly written, this text offers a clear and theoretically rigorous introduction to the politics of the Third World.

East Asian Capitalism Luigi Tomba 2002

Empire and Neoliberalism in Asia Vedi R. Hadiz 2006-09-27 This book analyzes the overall effect of American primacy on social and political conflicts in Asia, discussing how the post-Cold War American agenda does not promote democratization in the region, in contradiction to one of the major proclaimed aims of the proponents of the Pax Americana. This team of renowned scholars argue that the US agenda can strengthen anti-democratic impulses in Asian societies, exacerbating and complicating existing domestic conflicts and struggles. Empire and Neoliberalism in Asia also examines how the requirements of the War on Terror intersect with, and reinforce, those of transnationalized sections of American capital. Drawing on country case studies, this multidisciplinary book looks at the ramifications of the American Empire for the Asian region and will appeal to anyone interested in Asian politics, international relations, political economy, development studies and sociology.

Gaza Jean-Pierre Filiu 2014 Presents a history of the territory, in an effort to understand the essence of the conflicts in the Gaza Strip.

Contending Perspectives on Global Governance Alice D. Ba 2006-05-17 Global governance is fast becoming a ubiquitous phrase, succeeding globalization as the latest buzz term. But exactly what does it mean? For many scholars and policymakers the term captures important aspects of world politics. This unique volume delivers and compares the key perspectives of the leading thinkers in the area, equipping the reader with an excellent understanding of the debate now defining and mapping the future of this term. This comparative approach is underpinned by a lucid theoretical framework which guides the reader towards building a clear sense of the debate and its complexities. A wide range of empirical issues are covered, including those of Security, International Political Economy, Environment, Human Rights, Social Movements and Regulation. Including theorists of social constructivism, liberal imperialism and realism, this is an essential book for students and scholars which stimulates discussion and presents a fully rounded picture of global governance.

Democracy and the Public Space in Latin America Leonardo Avritzer 2002 Unlike many theorists, Avritzer builds his case empirically. He looks at human rights movements in Argentina and Brazil, neighbourhood associations in Brazil and Mexico and election-monitoring initiatives in Mexico. Contending that such participation has not gone far enough, he proposes a way to involve citizens even more directly in policy decisions. For example, he points to experiments in "participatory budgeting" in two Brazilian cities. Ultimately, the concept of such a space beyond the reach of democratic possibility, of the cultural transformation that spurred it, and of the tensions that persist, in a region where democracy is both new and different from the Old World models.

Comparative Politics of Latin America Daniel C. Hellinger 2020-12-22 This new edition brings Daniel C. Hellinger's brilliantly succinct and accessible introduction to Latin America up to date for a new generation of educators. In crisp detail, Hellinger gives a panoramic overview of the continent and offers a unique balance of comparative politics theory and interdisciplinary country-specific context, of a thematic organization and in-depth country case studies, of culture and economics, of scholarship and pedagogy. Insightful historical background in early chapters provides students with ways to think about how the past influences the present. However, while history plays a part in this text, comparative politics is the primary focus, explaining through fully integrated, detailed case studies and carefully paced analysis. Country-specific narratives are integrated with concepts and theories from comparative politics, leading to a richer

understanding of both. Updates to this new edition include: • Revisiting contemporary populism and the global emergence of right-wing populism. • The pros and cons of extractivism; the impact of Chinese investment and trade. • Contemporary crisis in Venezuela; expanded treatment of Colombia and Peru. • The role of the military; LGBTQ+ issues; corruption; violence; identity issues. • New sections on social media, artificial intelligence, and big data cyber technologies. • Examination of post-Castro Cuba; Costa Rica's exceptionalism. • Broader study of environmental movements; how governments relate to social movements. • Examination of personalist parties; refugee and asylum rights. • Interventionist policies of the current U.S. administration. • Early impact of the COVID-19 pandemic. *Comparative Politics of Latin America* is a thoughtful, ambitious, and thorough introductory textbook for students beginning Latin American Studies at the undergraduate level.

Handbook of International Relations Walter Carlsnaes 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005! 'The most systematic and wide-ranging survey of the multi-faceted field of International Relations yet produced. It is sure to become a standard reference work and teaching text, and is unlikely to be superseded at any time in the near future. It should be considered as essential reading' - *International Affairs* The *Handbook of International Relations*, published 2002 in hardback, quickly established itself as the benchmark volume, providing a state-of-the-art review and indispensable guide to the study of international relations. It is now released in paperback, in order to be accessible to students in classroom use. Divided into three parts, the volume reviews both the historical, philosophical, analytical and normative roots to the discipline and the key contemporary topics of research and debate today. The first part introduces the major approaches within the field and unpacks many of the on-going debates within the discipline including those between rationalist and constructivist approaches. The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power, to international and transnational actors, debates around globalization, and contending feminist perspectives. The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II. Examples of the many topics included are: foreign policy; war and peace; security; nationalism and ethnicity; finance; trade; development; the environment; and human rights.

Global Governance and Muslim Organizations Leslie A. Pal 2018-07-31 There are 1.6 billion Muslims in the world, represented on the world stage by 57 states, as well as a host of international organizations and associations. This book critically examines the engagement of these states in systems of global governance and with a variety of policy regimes, including climate change, energy, migration, humanitarian aid, international financial institutions, research and education. Chapters explore the dynamics of this engagement, the contributions to global order, the interests pursued and some of the contradictions and tensions within the Islamic world, and between that world and the 'West'. An in-depth perspective is provided about the traditional and new forms of multilateralism and the policy spaces formed which provide new opportunities for the Muslim and non-Muslim world alike.

Entrepreneurialism and Society Robert N. Eberhart 2022-09-22 *Entrepreneurialism and Society* invigorates academic research by developing new perspectives on how entrepreneurs and their organizations shape our social world.

Theories of Political Economy James A. Caporaso 1992-08-28 This exploration of some of the more important frameworks used for understanding the relationship between politics and economics includes the classical, Marxian, Keynesian, neoclassical, state-centered,

power-centered, and justice-centered.

Issues and Methods in Comparative Politics Todd Landman 2003 Explores the importance of comparative politics, discusses different comparative methods, investigates the big issues of today and looks forward to the key challenges for comparative politics over the next century.

International Political Economy Jeffry A. Frieden 2002-11-01 Now in its fourth edition, this best-selling reader in international political economy offers 31 solid articles - 15 new - by renowned scholars in political science and economics. Frieden and Lake have edited and introduced each reading with care to ensure its accessibility to students who are new to the subject. This reader continues to offer a provocative look at the positive and negative impacts of globalization.
