Level Up! Scott Rogers 2010-09-29 Design and build cutting-edge video games with help from video game expert Scott Rogers! If you want to design and build cutting-edge video games but aren't sure where to start, then this is the book for you. Written by leading video game expert Scott Rogers, who has designed the hits Pac Man World, Maxim vs. Army of Zin, and SpongeBob Squarepants, this book is full of Rogers's wit and imaginative style that demonstrates everything you need to know about designing great video games. Features an approachable writing style that considers game designers from all levels of expertise and experience Covers the entire video game creation process, including developing marketable ideas, understanding what gamers want, working with player actions, and more Offers techniques for creating non-human characters and using the camera as a character Shares helpful insight on the business of design and how to create design documents So, put your game face on and start creating memorable, creative, and unique video games with this book!

Considering Marijuana Legalization Jonathan P. Caulkins 2015-01-16 Marijuana legalization is a controversial and multifaceted issue that is now the subject of serious debate. In May 2014, Vermont Governor Peter Shumlin signed a bill requiring the Secretary of Administration to produce a report about various consequences of legalizing marijuana. This resulting report provides a foundation for thinking about the various consequences of different policy options while being explicit about the uncertainties involved.

Encyclopedia of New Media Steve Jones 2002-12-10 Edited by Steve Jones, one of the leading scholars and founders of this emerging field, and with contributions from an international group of scholars as well as science and technology writers and editors, the Encyclopedia of New Media widens the boundaries of today's information society through interdisciplinary, historical, and international coverage. With such topics as broadband, content filtering, cyberculture, cyberethics, digital divide, freenet, MP3, privacy, telemedicine, viruses, and wireless networks, the Encyclopedia will be an indispensable resource for anyone interested or working in this field. Unlike many encyclopedias that provide short, fragmented entries, the Encyclopedia of New Media examines each subject in depth in a single, coherent article. Many articles span several pages and are presented in a large, double-column format for easy reading. Each article also includes the following: A bibliography Suggestions for further reading Links to related topics in the Encyclopedia Selected works, where applicable Entries include: Pioneers, such as Marc Andreessen, Marshall McLuhan, and Steve Jobs Terms, from "Access" to "Netiquette" to "Web-cam" Technologies, including Bluetooth, MP3, and Linux Businesses, such as Amazon.com Key labs, research centers, and foundations Associations Laws, and much more The Encyclopedia of New Media includes a comprehensive index as well as a reader's guide that facilitates browsing and easy access to information. Recommended Libraries Public, academic, government, special, and private/corporate

Time Out Film Guide Tom Milne 1993 Authoritative criticism covering every area of world cinema: classic silents and thirties comedies, documentaries and the avant-garde, French or Japanese cinema as well as the Hollywood mainstream and the latest megaproductions and B-movie horrors. Assessments of well over 10,000 movies, including full details of director, cast, alternative titles and release date for each film.

Fairness and Effectiveness in Policing National Research Council 2004-04-06 Because police are the most visible face of government power for most citizens, they are expected to deal effectively with crime and disorder and to be impartial. Producing justice through the fair, and restrained use of their authority. The standards by which the public judges police success have become more exacting and challenging. Fairness and Effectiveness in Policing explores police work in the new century. It replaces myths with research findings and provides recommendations for updated policy and practices to guide it. The book provides answers to the most basic questions: What do police do? It reviews how police work is organized, explores the expanding responsibilities of police, examines the increasing diversity among police employees, and discusses the complex interactions between officers and citizens. It also addresses such topics as community policing, use of force, racial profiling, and evaluates the success of common police techniques, such as focusing on crime "hot spots." It goes on to look at the issue of legitimacy "how the public gets information about police work, and how police are viewed by different groups, and how police can gain community trust. Fairness and Effectiveness in Policing will be important to anyone concerned about police work: policy makers, administrators, educators, police supervisors and officers, journalists, and interested citizens.

Ethics for the Information Age Michael Jay Quinn 2006 Widely praised for its balanced treatment of computer ethics, Ethics for the Information Age offers a modern presentation of the moral controversies surrounding information technology. Topics such as privacy and intellectual property are explored through multiple ethical theories, encouraging readers to think critically about these issues and to make their own ethical decisions.

The Trekker's Guide to Voyager Hal Schuster 1996 A guide to the first two seasons of the television program examines the creation of the series, profiles the cast and crew, and discusses the individual episodes

Just Business: Multinational Corporations and Human Rights (Norton Global Ethics Series) John Gerard Ruggie 2013-03-25 "A true master class in the art of making the impossible possible." —Paul Polman One of the most vexing human rights issues of our time has been how to protect the rights of individuals and communities worldwide in an age of globalization and multinational business. Indeed, from Indonesian sweatshops to oil-based violence in Nigeria, the challenges of regulating harmful corporate practices in some of the world's most difficult regions long seemed insurmountable. Human rights groups and businesses were locked in a stalemate, unable to find common ground. In 2005, the United Nations appointed John Gerard Ruggie to the modest task of clarifying the main issues. Six years later, he had accomplished much more than that. Ruggie had developed his now-famous "Guiding Principles on Business and Human Rights," which provided a road map for ensuring responsible global corporate practices. The principles were unanimously endorsed by the UN and embraced and implemented by other international bodies, businesses, governments, workers' organizations, and human rights groups, keying a revolution in corporate social responsibility. Just Business tells the powerful story of how these landmark "Ruggie Rules" came to exist. Ruggie demonstrates how, to solve a seemingly unsolvable problem, he had to abandon many widespread and long-held understandings about the relationships between businesses, governments, rights, and law, and develop fresh ways of viewing the issues. He also takes us through the journey of assembling the right type of team, of witnessing the severity of the problem firsthand, and of pressing through the many obstacles such a daunting endeavor faced. Just Business is an

illuminating inside look at one of the most important human rights developments of recent times. It is also an invaluable book for anyone wanting to learn how to navigate the tricky processes of global problem-solving and consensus-building and how to tackle big issues with ambition, pragmatism, perseverance, and creativity.

**Learning from SARS** Institute of Medicine 2004-04-26 The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections.

**SimCity Societies** Greg Kramer 2007 Build the City of Your Dreams...Or Your Nightmares. • Transform your city into the hidden Haunted Town. • Complete building directory and catalog. • Get to know all the Special Sims. • Shape your cities to your will with city profile. • Harness Societal Values to grow the city you want.

**Freedom in the World 2007** Freedom House (U.S.) 2007 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

**Secession and Security** Ahsan I. Butt 2017-11-15 "The book is an excellent addition to the scholarly literature on subnational movements, both past and present, offering a range of insights to policymakers across the globe."—Ayesha Jalal, author of *The Struggle for Pakistan* "With judicious use of empirical evidence and rich case studies, Ahsan I. Butt makes a compelling case that states' responses to secessionist movements turn to a considerable degree on their external security environments."—S. Paul Kapur, author of *Jihad as Grand Strategy In Secession and Security*, Ahsan I. Butt argues that states, rather than separatists, determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Using more than one hundred interviews and extensive archival data, Butt focuses on two main cases—Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

**Overlord 2** Michael Knight 2009 •Walkthrough: Detailed walkthrough including each and every quest for all supernatural realms! •Maps: Maps showing locations of all quest items, Minion gates, objects, and sources of lifeforce. •Minions: Tips and Tactics on how to use all four types of Minions and their mounts against every enemy and boss! •The Tower: Info on outfitting your tower--and keeping your mistress happy! •Corruption: Strategies for playing for both maximum and minimum Corruption. •Achievements and Trophies: Complete list of all Xbox 360 Achievements and PLAYSTATION 3 Trophies!

**A Kingdom in Crisis** Andrew MacGregor Marshall 2015-11-15 'Perhaps the best introduction yet to the roots of Thailand's present political impasse. A brilliant book.' Simon Long, *The Economist* Struggling to emerge from a despotic past, and convulsed by an intractable conflict that will determine its future, Thailand stands at a defining moment in its history. Scores have been killed on the streets of Bangkok. Freedom of speech is routinely denied. Democracy appears increasingly distant. And many Thais fear that the death of King Bhumibol Adulyadej is expected to unleash even greater instability. Yet in spite of the impact of the crisis, and the extraordinary importance of the royal succession, they have never been comprehensively analysed – until now. Breaking Thailand's draconian *lèse majesté* law, Andrew MacGregor Marshall is one of the only journalists covering contemporary Thailand to tell the whole story. Marshall provides a comprehensive explanation that for the first time makes sense of the crisis, revealing the unacknowledged succession conflict that has become entangled with the struggle for democracy in Thailand.

**The Matrix Online** Chris McCubbin 2005 -Complete Ability Descriptions -Gang Stats -Item Descriptions and Recipes -Exile Hideout Maps -Zone Maps and Descriptions

**World Report 2021** Human Rights Watch 2021-02-02 The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. **Venice: Oxford Bibliographies Online Research Guide** Margaret King 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. This ebook is a static version of an article from *Oxford Bibliographies Online: Renaissance and Reformation*, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries. *Oxford Bibliographies Online* covers most subject disciplines within the social science and humanities, for more information visit [www.oxfordbibliographies.com](http://www.oxfordbibliographies.com).

**Refugees in Extended Exile** Jennifer Hyndman 2016-10-04 This book argues that the international refugee regime and its 'temporary' humanitarian interventions have failed. Most refugees across the globe live in 'protracted' conditions that extend from years to decades, without legal status that allows them to work and establish a home. It is contended that they become largely invisible to people based in the global North, and cease to remain fully human subjects with access to their political lives. Shifting the conversation away from the salient discourse of 'solutions' and technical fixes within state-centric

international relations, the authors recover the subjectivity lost for those stuck in extended exile. The book first argues that humanitarian assistance to refugees remains vital to people's survival, even after the emergency phase is over. It then connects asylum politics in the global North with the intransigence of extended exile in the global South. By placing the urgent crises of protracted exile within a broader constellation of power relations, both historical and geographical, the authors present research and empirical findings gleaned from refugees in Iran, Kenya and Canada and from humanitarian and government workers. Each chapter reveals patterns of power circulating through the 'colonial present', Cold War legacies, and the global 'war on terror'. Seeking to render legible the more quotidian struggles and livelihoods of people who find themselves defined as refugees, this book will be of great interest to international humanitarian agencies, as well as migration and refugee researchers, including scholars in refugee studies and human displacement, human security, globalization, immigration, and human rights.

Basic Economics Thomas Sowell 2014-12-02 The bestselling citizen's guide to economics Basic Economics is a citizen's guide to economics, written for those who want to understand how the economy works but have no interest in jargon or equations. Bestselling economist Thomas Sowell explains the general principles underlying different economic systems: capitalist, socialist, feudal, and so on. In readable language, he shows how to critique economic policies in terms of the incentives they create, rather than the goals they proclaim. With clear explanations of the entire field, from rent control and the rise and fall of businesses to the international balance of payments, this is the first book for anyone who wishes to understand how the economy functions. This fifth edition includes a new chapter explaining the reasons for large differences of wealth and income between nations. Drawing on lively examples from around the world and from centuries of history, Sowell explains basic economic principles for the general public in plain English.

Handbook of Cannabis Roger G. Pertwee 2014 In addition it also examines the complex morphology, cultivation, harvesting, and processing of cannabis and the ways in which the plant's chemical composition can be controlled. As well as offering a raft of scientific information there is extensive coverage of cannabinoid-based medicines. Helping readers to identify and evaluate their benefits, chapters explore pharmacological actions and the effects that seem to underlie approved therapeutic uses, how they are currently used to treat certain disorders, and the ever-growing number of wide-ranging potential clinical applications. There is also coverage of both the legal and illegal sources of cannabis, including 'coffee shops' and 'cannabis dispensaries'. The complex issue of 'recreational cannabis' is also tackled.

The Hacker Crackdown, Law and Disorder on the Electronic Frontier Bruce Sterling 2013-02 This book is part of the TREDITION CLASSICS. It contains classical literature works from over two thousand years. Most of these titles have been out of print and off the bookstore shelves for decades. The book series is intended to preserve the cultural legacy and to promote the timeless works of classical literature. Readers of a TREDITION CLASSICS book support the mission to save many of the amazing works of world literature from oblivion. With this series, Tredition intends to make thousands of international literature classics available in printed format again - worldwide.

The New Sultan Soner Cagaptay 2017-04-30 In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

Art in Chicago Maggie Taft 2018-10-24 For decades now, the story of art in America has been dominated by New York. It gets the majority of attention, the stories of its schools and movements and masterpieces the stuff of pop culture legend. Chicago, on the other hand . . . well, people here just get on with the work of making art. Now that art is getting its due. Art in Chicago is a magisterial account of the long history of Chicago art, from the rupture of the Great Fire in 1871 to the present, Manierre Dawson, László Moholy-Nagy, and Ivan Albright to Chris Ware, Anne Wilson, and Theaster Gates. The first single-volume history of art and artists in Chicago, the book—in recognition of the complexity of the story it tells—doesn't follow a single continuous trajectory. Rather, it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced, yet wholly accessible history of visual art in the city. From the temptingly blank canvas left by the Fire, we loop back to the 1830s and on up through the 1860s, tracing the beginnings of the city's institutional and professional art world and community. From there, we travel in chronological order through the decades to the present. Familiar developments—such as the founding of the Art Institute, the Armory Show, and the arrival of the Bauhaus—are given a fresh look, while less well-known aspects of the story, like the contributions of African American artists dating back to the 1860s or the long history of activist art, finally get suitable recognition. The six chapters, each written by an expert in the period, brilliantly mix narrative and image, weaving in oral histories from artists and critics reflecting on their work in the city, and setting new movements and key works in historical context. The final chapter, comprised of interviews and conversations with contemporary artists, brings the story up to the present, offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as—or resist identifying as—a Chicago artist today. The result is an unprecedentedly inclusive and rich tapestry, one that reveals Chicago art in all its variety and vigor—and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage. Part of the Terra Foundation for American Art's year-long Art Design Chicago initiative, which will bring major arts events to venues throughout Chicago in 2018, Art in Chicago is a landmark publication, a book that will be the standard account of Chicago art for decades to come. No art fan—regardless of their city—will want to miss it.

World Report 2018 Human Rights Watch 2018-01-30 The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken in 2016 by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.
