Pagan Christianity? Frank Viola 2010-09-30 Have you ever wondered why we Christians do what we do for church every Sunday morning? Why do we “dress up” for church? Why does the pastor preach a sermon each week? Why do we have pews, steeples, and choirs? This ground-breaking book, now in affordable softcover, makes an unsettling proposal: most of what Christians do in present-day churches is rooted, not in the New Testament, but in pagan culture and rituals developed long after the death of the apostles. Coauthors Frank Viola and George Barna support their thesis with compelling historical evidence and extensive footnotes that document the origins of modern Christian church practices. In the process, the authors uncover the problems that emerge when the church functions more like a business organization than the living organism it was created to be. As you reconsider Christ's revolutionary plan for his church—to be the head of a fully functioning body in

which all believers play an active role—you'll be challenged to decide whether you can ever do church the same way again.

Reformation in Britain and Ireland Felicity Heal 2003-03-20 The study of the Reformation in England and Wales, Ireland and Scotland has usually been treated by historians as a series of discrete national stories. Reformation in Britain and Ireland draws upon the growing genre of writing about British History to construct an innovative narrative of religious change in the four countries/three kingdoms. The text uses a broadly chronological framework to consider the strengths and weaknesses of the pre-Reformation churches; the political crises of the break with Rome; the development of Protestantism and changes in popular religious culture. The tools of conversion - the Bible, preaching and catechising - are accorded specific attention, as is doctrinal change. It is argued that political calculations did most to determine the success or failure of reformation, though the ideological commitment of a clerical elite was also of central significance.

Rethinking Incarceration Dominique DuBois Gilliard 2018-03-02 The United States has more people locked up in jails, prisons, and detention centers than any other country in the history of the world. Exploring the history and foundations of mass incarceration, Dominique Gilliard examines Christianity's role in its evolution and expansion, assessing justice in light of Scripture, and showing how Christians can pursue justice that restores and reconciles.

Chosen People Jacob S. Dorman 2016-03-01 Named Outstanding Academic Title by CHOICE Winner of the Wesley-Logan Prize of the American Historical Association Winner of the Byron Caldwell Smith Book Prize Winner of the 2014 Albert J. Raboteau Book Prize for the Best Book in Africana Religions Jacob S. Dorman offers new insights into the rise of Black Israelite religions in America, faiths ranging from Judaism to Islam to Rastafarianism all of which believe that the ancient Hebrew Israelites were Black and that contemporary African Americans are their descendants. Dorman traces the influence of Israelite practices and philosophies in the Holiness Christianity movement of the 1890s and the emergence of the Pentecostal movement in 1906. An examination of Black interactions with white Jews under slavery shows that the original impetus for Christian Israelite movements was not a desire to practice Judaism but rather a studied attempt to recreate the early

Christian church, following the strictures of the Hebrew Scriptures. A second wave of Black Israelite synagogues arose during the Great Migration of African Americans and West Indians to cities in the North. One of the most fascinating of the Black Israelite pioneers was Arnold Josiah Ford, a Barbadian musician who moved to Harlem, joined Marcus Garvey's Black Nationalist movement, started his own synagogue, and led African Americans to resettle in Ethiopia in 1930. The effort failed, but the Black Israelite theology had captured the imagination of settlers who returned to Jamaica and transmitted it to Leonard Howell, one of the founders of Rastafarianism and himself a member of Harlem's religious subculture. After Ford's resettlement effort, the Black Israelite movement was carried forward in the U.S. by several Harlem rabbis, including Wentworth Arthur Matthew, another West Indian, who creatively combined elements of Judaism, Pentecostalism, Freemasonry, the British Anglo-Israelite movement, Afro-Caribbean faiths, and occult kabbalah. Drawing on interviews, newspapers, and a wealth of hitherto untapped archival sources, Dorman provides a vivid portrait of Black Israelites, showing them to be a transnational movement that fought racism and its erasure of people of color from European-derived religions. Chosen People argues for a new way of understanding cultural formation, not in terms of genealogical metaphors of "survivals," or syncretism, but rather as a "polycultural" cutting and pasting from a transnational array of ideas, books, rituals, and social networks.

Rachid Ghannouchi Azzam S. Tamimi 2001-11-15 Tamimi introduces the thought of Sheikh Rachid Ghannouchi, the renowned Islamist political activist who heads Tunisia's most important--albeit banned--Islamist political opposition to the current authoritarian regime of Zine Abidine Ben Ali. Ghannouchi is the leader of a school in modern Islamic political thought that advocates democracy and pluralism. While insisting on the compatibility of democracy with Islam, he believes that because of their secular foundations, contemporary forms of liberal democracy may not suit Muslim societies. Ghannouchi insists, however, that Islam is compatible with Western thought in matters concerning the system of government, human rights, and civil liberties.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist

groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

The Myth of Equality Ken Wytsma 2019-07-23 Is privilege real or imagined? Ken Wytsma, founder of the Justice Conference, unpacks what we need to know to be grounded in conversations about today's race-related issues. And he helps us come to a deeper understanding of both the origins of these issues and the reconciling role we are called to play as witnesses of the gospel.

The Agile Church Dwight Zscheile 2014-10 In today's dynamic cultural environment, churches have to be more than faithful--they have to be agile. That means embracing processes of trial, failure, and adaptation as they form Christian community with new neighbors. And that means a whole new way of being church. Taking one page from the Bible and another from Silicon Valley, priest and scholar Dwight Zscheile brings theological insights together with cutting-edge thinking on organizational innovation to help churches flourish in a time of profound uncertainty and spiritual opportunity. Picking up where his recent bestseller, People of the Way left off, Zscheile answers urgent and practical questions around how churches become agile and adaptive to meet cultural change. Cutting-edge leadership theory, approaches, and techniques for churches Skillfully addresses both academic and church audiences Study guide included

Faith-Rooted Organizing Rev. Alexia Salvatierra 2013-12-06 Since the 1930s, organizing movements for social justice in the U.S. have largely been built on secular assumptions. But what if Christians were to shape their organizing around the implications of the truth that God is real and Jesus is risen? Reverend Alexia Salvatierra and theologian Peter Heltzel propose a model of organizing that arises from their Christian convictions, with implications for all faiths.

Lesser Feasts and Fasts 2018 2019-12-01 Lesser Feasts and Fasts has not been updated since 2006. This new edition, adopted at the 79th General Convention (resolution A065), fills that need. Biographies and collects associated with those included within the volume have been updated; a deliberate effort has been made to more

closely balance the men and women represented within its pages.

Creative Community Organizing Si Kahn 2010-02-15 Privatization has been on the right-wing agenda for years. Health care, schools, Social Security, public lands, the military, prisons-all are considered fair game. Through stories, analysis, impassioned argument-even song lyrics-Si Kahn and Elizabeth Minnich show that corporations are, by their very nature, unable to fulfill effectively what have traditionally been the responsibilities of government. They make a powerful case that the market is not the measure of all things, and that a vital public sector is an indispensable component of a healthy democracy.

Prophetic Lament Soong-Chan Rah 2015-09-03 The American church avoids lament. But lament is a missing, essential component of Christian faith. Soong-Chan Rah's prophetic exposition of the book of Lamentations provides a biblical and theological lens for examining the church's relationship with a suffering world. Hear the prophet's lament as the necessary corrective for Christianity's future.

Worship Across the Racial Divide Gerardo Marti 2017-12-15 Many scholars and church leaders believe that music and worship style are essential in stimulating diversity in congregations. Gerardo Marti draws on interviews with more than 170 congregational leaders and parishioners, as well as his experiences participating in worship services in a wide variety of Protestant, multiracial Southern Californian churches, to present this insightful study of the role of music in creating congregational diversity. Worship across the Racial Divide offers a surprising conclusion: that there is no single style of worship or music that determines the likelihood of achieving

a multiracial church. Far more important are the complex of practices of the worshipping community in the production and absorption of music. Multiracial churches successfully diversify by stimulating unobtrusive means of interracial and interethnic relations; in fact, preparation for music apart from worship gatherings proves to be just as important as its performance during services. Marti shows that aside from and even in spite of the varying beliefs of attendees and church leaders, diversity happens because music and worship create practical spaces where cross-racial bonds are formed. This groundbreaking book sheds light on how race affects worship in multiracial churches. It will allow a new understanding of the dynamics of such churches, and provide crucial aid to church leaders for avoiding the pitfalls that inadvertently widen the racial divide.

The Glass Castle Jeannette Walls 2007-01-02 A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by anti-institutional parents in a household of extremes.

*Robust Ethics* Erik J. Wielenberg 2014 Erik J. Wielenberg draws on recent work in analytic philosophy and empirical moral psychology to defend non-theistic robust normative realism, according to which there are objective ethical features of the universe that do not depend on God for their existence. He goes on to develop an empirically-grounded account of human moral knowledge.

*The Companion to the Book of Common Worship* Peter C. Bower 2003-01-01 Published during the tenth anniversary of the *Book of Common Worship* (1993), *The Companion to the Book of Common Worship* is a practical guide, answering questions such as how do I use the *Book of Common Worship* to its fullest advantage? and how can the *Book of Common Worship* form a congregation into a community that glorifies and enjoys God?

*We Make the Road by Walking* Myles Horton 1990 This dialogue between two of the most prominent thinkers on social change in the twentieth century was certainly a meeting of giants. Throughout their highly personal conversations recorded here, Horton and Freire discuss the nature of social change and empowerment and their individual literacy campaigns.

*It Comes from the People* Mary Ann Hinsdale 1995 The closing of local mines and factories collapsed the economic and social structure of Ivanhoe, Virginia, a small, rural town once considered a dying community "on the rough side of the mountain." Documenting the creative survival techniques developed by Ivanhoe citizens in the aftermath, *It Comes from the People* tells how this community organized to revitalize the town and demand participation in its future. Photos, interviews, stories, songs, poems, and scenes from a local theater production tell how this process of rebuilding gradually uncovered the community's own local theology and a growing consciousness of cultural and religious values. A significant aspect of this social transformation in Ivanhoe, as in many rural areas, was the emergence of women as leaders, educators, and organizers, developing new approaches to revive the economy and the people simultaneously. This book is unusually open about the difficult process faced by outside researchers working with community members to describe community life. It discusses the inherent dilemmas frankly and presents a model for those who engage in community studies and ethnographic research. Author note: Mary Ann Hinsdale is Associate Professor of Religious Studies at Boston College. Helen M. Lewis is Interim Director of the Appalachian Center at Berea College in Kentucky. S. Maxine Waller is President of the Ivanhoe Civic League and directs community-based student volunteer programs in Virginia.

*Democracy and Education* John Dewey 1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

*The German Historicist Tradition* Frederick C. Beiser 2011-11-24 This is the first history in English of German historicism, the intellectual tradition which holds that history is the key to understanding all human values, beliefs and actions. Beiser surveys the key thinkers from the mid-18th to the early 20th century and illuminates the

sources and reasons for this revolution in modern thought.

Well Connected Phill Butler 2006-03 Jesus's words in John 17 represent one of the church's highest values: "May they all be one as you and I, Father, are one." Yet divisions occur from the highest levels of the church to street level projects, often neutralizing effectiveness and undercutting the credibility of Jesus's message. This book helps any believer turn the ideal of John 17 into reality. It provides solid grounding in the principles of partnership, abundant case histories, and empowering "how to" suggestions for lay person and ministry leader alike.

The Stammheim Missal Elizabeth Cover Teviotdale 2001 The Stammheim Missal is one of the most visually dazzling and theologically ambitious works of German Romanesque art. Containing the text recited by the priest and the chants sung by the choir at mass, the manuscript was produced in Lower Saxony around 1160 at Saint Michael's Abbey at Hildesheim, a celebrated abbey in medieval Germany. This informative volume features color illustrations of all the manuscript's major decorations. The author surveys the manuscript, its illuminations, and the circumstances surrounding its creation, then explores the tradition of the illumination of mass books and the representation of Jewish scriptures in Christian art. Teviotdale then considers the iconography of the manuscript's illuminations, identifies and translates many of its numerous Latin inscriptions, and finally considers the missal and its visually sophisticated and religiously complex miniatures as a whole.

The Next Evangelicalism Soong-chan Rah 2009-11-11 The future is now. Just as global Christianity is shifting away from the West to the South and the East, so too is the North American church diversifying in terms of race, ethnicity and culture. While some parts of American Christianity are in decline, others are experiencing transformation and growth as a result of increasing globalization. Spiritual renewal is happening in corners and margins not always noticed by those in the center. Soong-Chan Rah calls the North American church to escape its captivity to Western cultural trappings and to embrace a new evangelicalism that is diverse and multiethnic. While many white churches find themselves ill-equipped to minister to today's cultural context, many immigrant and multiethnic churches are flourishing, offering much-needed alternatives for the church as a whole. The church is changing to embody the cultural realities of the twenty-first century. Come, discover the vitality of the

next evangelicalism.

**The New Jim Crow** Michelle Alexander 2020-01-07 Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—“one of the most influential books of the past 20 years,” according to the Chronicle of Higher Education—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander’s *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the Birmingham News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

**The Righteous Mind** Jonathan Haidt 2013 Presents a groundbreaking investigation into the origins of morality at the core of religion and politics, offering scholarly insight into the motivations behind cultural clashes that are polarizing America.

**Poetics of the Flesh** Mayra Rivera 2015-09-16 In *Poetics of the Flesh* Mayra Rivera offers poetic reflections on how we understand our carnal relationship to the world, at once spiritual, organic, and social. She connects conversations about corporeality in theology, political theory, and continental philosophy to show the relationship between the ways ancient Christian thinkers and modern Western philosophers conceive of the “body” and

"flesh." Her readings of the biblical writings of John and Paul as well as the work of Tertullian illustrate how Christian ideas of flesh influenced the works of Maurice Merleau-Ponty and Michel Foucault, and inform her readings of Judith Butler, Frantz Fanon, and others. Rivera also furthers developments in new materialism by exploring the intersections among bodies, material elements, social arrangements, and discourses through body and flesh. By painting a complex picture of bodies, and by developing an account of how the social materializes in flesh, Rivera provides a new way to understand gender and race.

Rules for Radicals Saul Alinsky 2010-06-30 First published in 1971, Rules for Radicals is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

American Schism Seth David Radwell 2021-06-29 An enlightened exploration of history to unite a deeply divided America The political dialogue in America has collapsed. Raw and bitter emotions such as anger and resentment have crowded out any logical debate. In this investigative tracing of our nation's divergent roots, author Seth David Radwell explains that only reasoned analysis and historical perspective can act as salves for the irrational political discourse that is raging at present. Two disparate Americas have always coexisted, and Radwell discovered that the surprising origin of these dual Americas was not an Enlightenment, but two distinct Enlightenments that have been fiercely competing since the founding of our country. Radwell argues that it is only by embracing Enlightenment principles that we can build a civilized, progressive, and tolerant society. American Schism reveals • the roots of the rifts in America since its founding and what is really dividing red and blue America; • the core issues that underlie all of today's bickering; • a detailed, effective plan to move forward, commencing what will be a long process of repair and reconciliation. Seth David Radwell changes the nature of the political debate by fighting unreason with reason, allowing Americans to firmly ground their differing points of

view in rationality.
