If you are a business user who wants to get the most out of Lotus Notes, then this book is for you. From beginners to seasoned professionals, this book aims to cover the Client Interface and Mail features, best practices, tips, tricks, and tools that enable you to work smarter-almost effortlessly-in Lotus Notes 8.5.

Customizing and Extending IBM Content Navigator Wei-Dong Zhu 2015-04-13 IBM® Content Navigator provides a unified user interface for your Enterprise Content Management (ECM) solutions. It also provides a robust development platform so you can build customized user interface and applications to deliver value and an intelligent, business-centric experience. This IBM Redbooks® publication guides you through the Content Navigator platform, its architecture, and the available programming interfaces. It describes how you can configure and customize the user interface with the administration tools provided, and how you can customize and extend Content Navigator using available development options with sample code. Specifically, the book shows how to set up a development environment, and develop plug-ins that add an action, service, and feature to the user interface. Customization topics include implementing request and response filters, external data services (EDS), creating custom step processors, and using Content Navigator widgets in other applications. This book also covers mobile development, viewer customization, component deployment, and debugging and troubleshooting. This book is intended for IT architects, application designers and developers working with IBM Content Navigator and IBM ECM products. It offers a high-level description of how to extend and customize IBM Content Navigator and also more technical details of how to

do implementations with sample code.

IBM Lotus Notes 8.5 User Guide Karen Hooper 2010-09-03 A practical hands-on user guide and eBook with time saving tips and comprehensive instructions for using Lotus Notes effectively and efficiently.

Lotus Notes 6. 5 Advanced Quick Source Guide Quick Source 2006-11-01 This 6 page, tri-fold, full-color, guide is an invaluable resource for anyone who uses Lotus Notes 6.5! In a clear, user-friendly format, it provides step-by-step instructions, short cuts, and tips on how to execute more advanced commands of the software. Advanced topics include: Setting Messages Delivery Options, Using Stationery, Adding a Signature to All Messages, Working with Mail Rules, and Setting an Out-of-Office Message. It covers more advanced Calendar features including Scheduling and Canceling a Meeting, Responding to a Meeting Invitation, Setting Your Free Time Schedule, Working with Group Calendars, Customizing the Calendar, Delegating Access to Your Schedule, Setting Up Your Calendar for Others to Manage, and Managing a Users Calendar. This guide also covers Deleting and Retrieving Items, Rescheduling Canceling, and Confirming a Group to To Do Item, and Working with a TeamRoom Database. It also covers security features, such as Locking and Encrypting a Document, and Locking the Notes Display. This guide covers customization, and much more! This is an excellent companion to the Lotus Notes 6.5 Quick Reference Guide.

Setting Up a Web Server S. M. H. Collin 1997 Setting Up a Web Server was written to help new and prospective web masters choose, configure, use, and understand how web servers work. It details each step required to choose, install, and configure the hardware and software elements, then promote and publish on the web site. It covers Internet and

intranet security, communications, and links to other servers in an organization. The book also explains about the main web server software applications, how they differ and which works best in different environments. Setting Up a Web Server ensures that your server is well-connected. It covers communications and hardware, explaining: How to choose the best communications links between the server and the internet How to link your server to your LAN How TCP/IP works to bind the Internet together How to configure your server for a particular hardware setup The publishing techniques covered will help you to create a great web site. You'll also find coverage of advanced HTML page design, database publishing, and programming with Perl, Java, Javascript, and Visual Basic. Setting Up a Web Server is the complete reference book for anyone who is setting up a web server-it covers all major platforms, software, links and web techniques! · Discusses main web server software applications · Covers communications and hardware · Details servers for e-mail, FTP, Telnet, gopher, finger and the latest push information servers

Lotus Notes and Domino 6 System Administrator Karen Fishwick 2004 "Lotus Notes and Domino 6 System

Administrator Exam Cram 2" is the best exam preparation available and the only one of its type for the IBM Certified Professional exams. This book covers the three exams required to become an IBM CP. Those who are current Certified Lotus Professionals now become IBM Certified Professional System Administrators - Lotus Notes and Domino 6 (IBM CP). The desire to attain a Lotus certification is growing because Lotus is one of the top 10 certifications for salary level, % of salary increase, and promotional opportunities. CPs earn higher salaries with each certification and 80% of Lotus certified candidates continue from a specialist (CS) to a professional (CP). This Exam Cram 2 is perfect for those who have proven experience with Notes client and Domino server and are now ready to take the exam. The best-selling Exam Cram 2 series shows them exactly what they need to know to pass the exam.

A Guide to Developing End User Education Programs in Medical Libraries Elizabeth Connor 2014-02-04 Explore a wealth of ideas, insights, and approaches that can be used or adapted by any medical library! Curricular changes in the health professions, coupled with a growing acceptance of the Internet as a tool for daily living, have contributed to a climate of change and opportunity for health sciences libraries. A Guide to Developing End User Education Programs in Medical Libraries will help graduate students in library science, entry-level medical librarians, and experienced educators to understand best practices and to build, expand, and improve medical library-sponsored educational programs. A Guide to Developing End User Education Programs in Medical Libraries is designed to aid and inform professionals who develop, teach, or evaluate end-user education programs in health sciences libraries. Eighteen case studies represent the ideas and approaches of more

than fifteen private and public institutions in the United States and the Caribbean. The studies focus on effective end-user programs for medical information electives, veterinary medicine programs, health care informatics, and evidence-based medicine, plus instructional programs for teaching residents, ThinkPad-facilitated instruction, and more. The guide also examines how several medical libraries have created and expanded their end-user education programs. The contributors to *A Guide to Developing End User Education Programs in Medical Libraries* are health sciences librarians from teaching hospitals, medical/dental/veterinary schools, and health professions-focused universities in a dozen U.S. states and the West Indies. Each of them is involved in designing, teaching, and evaluating user education. This book will help you educate students of medicine, pharmacy, physical therapy, dentistry, and veterinary medicine, plus residents and practicing health professionals. The educational objectives and approaches in the case studies include: clinical medical librarianship integrating informatics objectives into curricula developing credit and non-credit coursework distance learning using new and emerging technologies to improve instruction The case studies in *A Guide to Developing End User Education Programs in Medical Libraries* follow a format similar to that of the structured abstract, including introduction, setting, educational approaches, evaluation methods, future plans, conclusion, and references. Some are illustrated with tables and figures. Several are supplemented by material in chapter-specific appendixes. Further information about specific classes, programs, or teaching philosophies is made available via Web sites featured in the book. Let this valuable guide help you—and your institution—take advantage of the opportunities available at this exciting time in the evolution of

library science!

XPages Extension Library Paul Hannan 2012 Use the new XPages Extension Library to build state-of-the art web and mobile applications more easily - and get them to market faster! \* \*The first and only complete guide to next-generation Domino development with IBM's powerful new XPages Extensibility Framework. \*Begins where Mastering XPages left off: gives a loyal community of IBM Lotus XPages users crucial information on the XPages Extension Library's breakthrough capabilities. \*By an all-star team of XPages experts inside and outside IBM. The XPages Extensibility Framework is one of the most powerful new features built into IBM Lotus Notes Domino 8.5.2. Using it, developers can build their own artifacts and move far beyond XPages' out-of-the-box features. XPages extensibility has already spawned the creation of many exciting new user interface components that are freely available to the global Lotus development community. Now, a team of all-star XPages experts from inside and outside IBM show developers how to take full advantage of the XPages Extensibility Framework, Extension Library, Extensibility API, and the growing portfolio of components built with them. The authors walk through installing and configuring the XPages Extension Library, integrating it with Lotus Notes Designer, and using new XPages components to quickly build state-of-the-art web and mobile applications. Combining reference material and practical use cases, it serves as a step-by-step guide for XPages developers at all levels of experience.

Mastering XPages Martin Donnelly 2011-01-01 The first complete, practical guide to XPages development - direct from members of the XPages development team at IBM

Lotus Martin Donnelly, Mark Wallace, and Tony McGuckin have written the definitive programmer's guide to utilizing this breakthrough technology. Packed with tips, tricks, and best practices from IBM's own XPages developers, *Mastering XPages* brings together all the information developers need to become experts - whether you're experienced with Notes/Domino development or not. The authors start from the very beginning, helping developers steadily build your expertise through practical code examples and clear, complete explanations. Readers will work through scores of real-world XPages examples, learning cutting-edge XPages and XSP language skills and gaining deep insight into the entire development process. Drawing on their own experience working directly with XPages users and customers, the authors illuminate both the technology and how it can be applied to solving real business problems. Martin Donnelly previously led a software startup that developed and distributed small business accounting software. Donnelly holds a Commerce degree from University College Cork and an M.S. in Computer Science from Boston University. Mark Wallace has worked at IBM for 15 years on many projects as a technical architect and application developer. Tony McGuckin participates in the Lotus OneUI Web Application and iWidget Adoption Workgroup. He holds a bachelor's degree in Software Engineering from the University of Ulster.

Survival Guide for Lotus Notes and Domino Administrators

Mark Elliott 2009-03-01 IBM's® Practical, Hands-On Guide to Supporting and Administering Lotus Notes and Lotus Domino

This is the only book that focuses entirely on the specific technical, desk-side, and infrastructure issues that support professionals and administrators encounter when implementing and running Lotus Notes in production environments. Authored by one of IBM's top Lotus experts, it draws on the firsthand experiences of IBM professionals working in hundreds of client environments. Mark Elliott has created a true "encyclopedia" of proven resolutions to common problems and has streamlined processes for infrastructure support. Elliott systematically addresses support solutions for all recent Lotus Notes and Domino environments. Survival Guide for Lotus Notes and Domino Administrators is organized for rapid access to specific solutions in three key areas: client setup, technical support, and client software management. It brings together best practices for planning deployments, managing upgrades, addressing issues with mail and calendars, configuring settings based on corporate policies, and optimizing the entire support delivery process. Along the way, Elliott illuminates the administrative and support implications of the latest enhancements to Lotus Notes and Lotus Domino, in areas ranging from messaging to plug-in support. Whatever your role in managing, administering, or supporting IBM Lotus technologies, this book will help you respond more quickly,

efficiently, and effectively—reducing support costs as you increase customer satisfaction. Coverage includes An overview to key software changes introduced in Release 8.0 Resolutions to dozens of error messages and other obscure issues Using the “Smart Upgrade” toolkit to automate upgrades Implementing policies to manage client settings and reduce administrative overhead Optimizing Lotus Notes performance and avoid user frustration Making the most of technical support tools and plug-ins Finding technical support and patches on the IBM developerWorks website Configuring Lotus Notes and supporting common activities

IBM Sametime 8.5.2 Administration Guide Gabriella Davis 2011-11-17 The IBM Lotus Sametime 8.5.2 Administration Guide uses a practical, no-nonsense approach to give you the essential information you need. Using realistic scenarios, you learn how to configure and maintain your environment to meet your needs and take advantage of the flexibility offered in Sametime 8.5.2. If you are responsible for installing and administering Sametime 8.5.2, then this book is for you. If you're completely new to Sametime administration, this book will serve as your roadmap. If you're making the jump from a prior version of Sametime, then you'll see how Sametime 8.5.2 differs and how you work with the new configuration. Even if you already have Sametime 8.5.2 up and running, this guide will answer those questions you may still have of why and how the various server components work.

BANTAM User Guide Julian Ashbourn 2013-03-09 BANTAM is the first modeling language specifically designed for applications in Biometrics and Token Technology. It represents a significant step forward for the design and implementation of biometric and related technology applications in that: - it is very simple to learn and use; - it offers a consistent system of documentation and a clarity of presentation which make the accurate description of user requirements much easier; - it provides a complete methodology for managing the project from original business case, through procurement and implementation, to subsequent training and support. "The User Guide" provides much more than just a guide to the Bantam methodology: readers will also find lots of good advice on program

management in general and will gain an insight into designing biometric and related applications. It will be essential reading for anyone who is serious about biometrics and related technologies, including governmental/corporate end-users, systems integrators, biometric vendors, application developers and device manufacturers. It will also be useful background reading for advanced students and IT and management consultants. Reviews of Julian Ashbourn's first book: "Biometrics: Advanced Identity Verification": "You could attend a dozen conferences and not come away with the kind of overview presented in this new book". Dave Mintie, Connecticut Department of Social Services " a highly readable, entertaining guidebook that should serve as a welcome companion for anyone who must promote, explain, justify, or control an organization's transition to biometric technology." Richard Norton, Executive Director, International Biometrics Industry Association  
Lotus Notes Jane Calabria 2003 Covers e-mail, scheduling, calendars, customizing, and attachments.
