The Cultural Cold War Frances Stonor Saunders 2013-11-05 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Tropical Plant Collecting Scott A. Mori 2011 Tropical Plant Collecting provides field biologists with information about carrying out fieldwork in tropical America, gathering botanical collections, managing specimens in herbaria, making information about plants available on the Internet, and raising money to fund both expeditions and the preparation of floras and monographs. The book is based on over 40 years of tropical plant collecting in Central and South America by the senior editor and his colleagues. Although traditional field and herbarium techniques are discussed, the book emphasizes how new techniques provided by digital photography, databases, and the Internet have revolutionized plant collecting and data presentation in systematic botany. The audience for this book is tropical biologists and students who, as part of their research, need to gather botanical specimens to document their scientific studies. The book is also useful for those taking neotropical field biology courses, and Chapter 3, which covers many of the dangers of traveling and working in neotropical forests, is recommended for anyone planning to visit remote areas of this region.

The Synthesis of Yoga Aurobindo Ghose 1992 "Truth of philosophy is of a merely theoretical value unless it can be lived, and we have therefore tried in *The Synthesis of Yoga* to arrive at a syncretical view of the principles and methods of the various lines of spiritual self-discipline and the way in which they can lead to an integral divine life in the human existence." Eccentric Neighborhoods Rosario Ferré 2014-04-29 A "colorful family saga" set against the dramatic historical backdrop of twentieth-century Puerto Rico, from an author nominated for the National Book Award (*Kirkus Reviews*). Elvira Vernet narrates *Eccentric Neighborhoods* as she attempts to solve the mystery of who her parents truly are. Her mother, the beautiful and aristocratic Clarissa Rivas de Santillana, was born into a rarefied world of privilege, one of five daughters on the family's sugar plantation. Elvira's father, Aurelio Vernet, and his three brothers and two sisters were raised by Santiago, a Cuban immigrant who ruled his family with an iron hand. As Puerto Rico struggles for independence—and Aurelio takes his place among the powerful political gentry—a legacy of violence, infidelity, faith, and sacrifice is born. Set against the backdrop of a country coming of age, *Eccentric Neighborhoods* is a lush, transcendent novel, a family saga about mothers and daughters, husbands and wives, parents and children. In this magnificent follow-up to *The House on the Lagoon*, Rosario Ferré delivers a work of historical fiction influenced by magical realism and infused with forgiveness and love.

This I Believe Carlos Fuentes 2007-12-18 In this masterly, deeply personal, and provocative book, the internationally renowned Mexican writer Carlos Fuentes, whose work has been called "a combination of Poe, Baudelaire, and Isak Dinesen" (*Newsweek*), steps back to survey the wellsprings of art and ideology, the events that have shaped our time, and his extraordinary life and fiercest passions. Arranged alphabetically from "Amore" to "Zurich," *This I Believe* takes us on a marvelous inner journey with a great writer. Fuentes ranges wide, from contradictions inherent in Latin American culture and politics to his long friendship with director Luis Buñuel. Along the way, we find reflection on the mixed curse and blessing of globalization; memories of a sexual initiation in Zurich; a fond tracing of a family tree heavy with poets, dreamers, and diplomats; evocations of the streets, cafés, and bedrooms of Washington, Paris, Santiago de Chile, Cambridge, Oaxaca, and New York; and a celebration of literary heroes including Balzac, Cervantes, Faulkner, Kafka, and Shakespeare. Throughout, Fuentes captivates with the power of his intellect and his prose. Here, too, are vivid, often heartbreaking glimpses into his personal life. "Silvia" is a powerful love letter to his beloved wife. In "Children," Fuentes recalls the births of his daughters and the tragic death of his son; in "Cinema" he relives the magic of films such as *Citizen Kane* and *The Wizard of Oz*. Further extending his reach, he examines the collision between history and contemporary life in "Civil Society," "Left," and "Revolution." And he poignantly addresses the experiences we all hold in common as he grapples with beauty, death, freedom, God, and sex. By turns provocative and intimate, partisan and universal, this book is a brilliant summation of an international literary career. Revisiting the influences, commitments, readings, and insights of a lifetime, Fuentes has fashioned a magnificently coherent statement of his view of the world, reminding us once again why reading Fuentes is "like standing beneath the dome of the Sistine Chapel. . . . The breadth and enormity of this accomplishment is breathtaking" (*The Denver Post*).

A Cultural History of Tarot Helen Farley 2019-08-22 The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages, such as The Tower, The Wheel of Fortune, The Hanged Man and The Fool: over which loom the terrifying figures of Death and The Devil. The 21 numbered playing cards of tarot have always exerted strong fascination, way beyond their original purpose, and the multiple resonances of the deck are ubiquitous. From T S Eliot and his 'wicked pack of cards' in "The Waste Land" to the psychic divination of Solitaire in Ian Fleming's "Live and Let Die"; and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners, the cards have in modern times become inseparably connected to the occult. They are now viewed as arguably the foremost medium of prophesying and foretelling. Yet, as the author shows, originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance. It was only much later, in the 18th and 19th centuries, that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind, body and spirit. This is the first book to explore the remarkably varied ways in which tarot has influenced culture. Tracing the changing patterns of the deck's use, from game to mysterious oracular device, Helen Farley examines tarot's emergence in 15th century Milan and discusses its later associations with astrology, kabbalah and the Age of Aquarius.

Art School! Steven Henry Madoff 2009-09-11 Leading international artists and art educators consider the challenges of art education in today's dramatically changed art world. The last explosive change in art education came nearly a century ago, when the German Bauhaus was formed. Today, dramatic changes in the art world—its increasing professionalization, the pervasive power of the art market, and fundamental shifts in art-making itself in our post-Duchampian era—combined with a revolution in information technology, raise fundamental questions about the education of today's artists. Art School (Propositions for the 21st Century) brings together more than thirty leading international artists and art educators to reconsider the practices of art education in academic, practical, ethical, and philosophical terms. The essays in the book range over continents, histories, traditions, experiments, and fantasies of education. Accompanying the essays are conversations with such prominent artist/educators as John Baldessari, Michael Craig-Martin, Hans Haacke, and Marina Abramovic, as well as questionnaire responses from a dozen important artists—among them Mike Kelley, Ann Hamilton, Guillermo Kuitca, and Shirin Neshat—about their own experiences as students. A fascinating analysis of the architecture of major historical art schools throughout the world looks at the relationship of the principles of their designs to the principles of the pedagogy practiced within their halls. And throughout the volume, attention is paid to new initiatives and proposals about what an art school can and should be in the twenty-first century—and what it shouldn't be. No other book on the subject covers more of the questions concerning art education today or offers more insight into the pressures, challenges, risks, and opportunities for artists and art educators in the years ahead. Contributors Marina Abramovic, Dennis Adams, John Baldessari, Ute Meta Bauer, Daniel Birnbaum, Saskia Bos, Tania Bruguera, Luis Camnitzer, Michael Craig-Martin, Thierry de Duve, Clémentine Deliss, Charles Esche, Liam Gillick, Boris Groys, Hans Haacke, Ann Lauterbach, Ken Lum, Steven Henry Madoff, Brendan D. Convergence Culture Henry Jenkins 2008-09 "What the future fortunes of [Gramsci's] writings will be, we cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this." —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics. Antonio A. Santucci is perhaps the world's preeminent Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci's masterful intellectual biography of the great Sardinian scholar and revolutionary. Gramscian terms such as "civil society" and "hegemony" are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci's purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci's writings, is absorb Gramsci's methods. These can be summed up as the suspicion of "grand explanatory schemes," the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these, Joseph Buttigieg says in his Nota: "Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society." The rigor of Santucci's examination of Gramsci's life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.
