No. 4356 April 25, 1953 NATURE 737 - University of Colorado ...

berg's' model No.1; that is, t he bases are on the inside of the helix and the phosphates on the outside. The configuration of the sugar and the atoms near it is close to Furberg's 'standardconfiguration',the sugar being roughly perpendi- cular to the attached base. There is a residue on each chain every 3-4 A. in the z-diree- tion.
